Editor Messenger: Your statement in the Messenger of September 3d, as originally fixed, came to my notice

In regard to the change from the original date I desire to say, I had nothing to do with the change, and knew of no contemplated change, but supposed that the date as originally fixed was final, and have made my canvass to that end. When the committee met on June 14th Mr. LaVega Clements, representing me, suggested to the committee that the date be fixed for the judicial primary on November 4th in order to bring out a full vote in the district, which would in my opinion put the election of Judge Settle for appellate judge beyond question. This was an original suggestion of my friends and myself.

So far as my individual candidacy s concerned, I am willing to take my A Certain Cure for Dysentery chances of securing the nomination for Circuit Judge on any date the committee may fix, but think the welfare party that intended making a long of the Democratic party is the paramount question to be considered, and whatever will promote the election of a Democrat as Judge of the Court of Appeals is the thing all Democrats desire to have done. So far as the party is concerned it matters not whether my worthy opponent or myself secures the nomination, this district will have a Democratic circuit Judge, but the more vital question is, are we going to elect Judge Settle to the appellate bench? And with one accord this should be emphatically answered by every Democrat. ":We are going to elect him." My opinion has ever been that this end can be more surely accomplished by having the judicial primary on November 4th, and having structor. this view I heartily indorse your suggestion that the date should be chang- Habit in Pupils-Birch Shields. ed back by the committe, to Novem-

Expense is not the question, but Democratic success is the only thing to consider. I shall insist, as I have in my canvass, that all Democrats, whether they be for my opponent or myself for circuit judge, go to the mild winters, the stock product of the polls, vote the Democratic ticket, and when that duty is performed, then take his choice between us. A Venerable Saint. After preaching and starving for 30 years in Logville, dear old Parson Rigdon made up his mind to change his field of labor. He had received another call and the little congregation had gathered together in the little wooden church to hear the last farewell words of the venerable saint.

After singing "Near, My God, to Thee," and offering a prayer that brought tears to the eyes of the congregation, the parson wiped his eyes and said:

"Brothers and sisters, I have called you together to-night to say farewell. After ministering to you for 30 years I don't think the Lord loves this people very much, for few of you have died.
